

PROS CLOUD

SMART CLOUD APPLICATIONS YOU CAN TRUST

SAAS GIVES YOU THE FASTEST VALUE FROM YOUR PROS SOLUTIONS

Realize Your Potential

PROS®

THE PROS CLOUD

All PROS applications are available in a SaaS model, fully hosted and managed by PROS from our high-performance, secure cloud. What makes the PROS Cloud different? PROS applications are built to muscle through your mountains of big data to deliver real business results. Now companies can still get that same power from the convenience of the PROS cloud – architected and scaled to meet intense data demands. It's simply a better value and logical fit for companies seeking to gain a competitive advantage, while balancing costs.

WORRY-FREE SECURITY

PROS cloud infrastructure is housed in SOC 2-certified data centers and has the security and availability features you demand of a mission-critical application:

- ✓ Enterprise-Wide Information Security Program
- ✓ SOC2 & HIPAA Compliance Environments
- ✓ Strict Enforcement of All Security Policies
- ✓ Data Center Physical Security
- ✓ Security Training for All Employees
- ✓ ITIL Incident and Change Management
- ✓ Vulnerability Scanning & Assessment

Get the power to muscle through big data with the convenience of the PROS cloud.

HIGH-PERFORMANCE CLOUD OPTIMIZED FOR BIG DATA

Our real-time technology is massively scalable and performance is world-class. But don't take our word for it, see how the reliability, scalability and performance of our high-performance cloud stacks up to the world's top performers.

<p>HARDWARE SPECS</p>	<p>IBM WATSON</p> <hr/> <p>Runs on 2,800 cores with 16TB of memory and 4 TB of storage.¹</p>	<p>PROS HIGH-PERFORMANCE CLOUD</p> <hr/> <p>Runs on 2,500 cores with 28TB of memory, 225TB of high performance storage and 42TB extreme performance storage (Flash).</p>
------------------------------	----------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p>TRANSACTIONS HANDLED</p>	<p>TWITTER</p> <hr/> <p>Processes 500 million tweets per day.²</p>	<p>SFDC</p> <hr/> <p>Processes 3 billion transactions daily.³</p>	<p>PROS HIGH-PERFORMANCE CLOUD</p> <hr/> <p>Updates more than 200 million prices and 1.7 billion forecasts daily.</p> <p>Our real-time technology is massively scalable:</p> <p>It can serve more transactions per minute than Twitter, where each transaction is more than 10 times the size of a single tweet and each transaction is processed in 10 milliseconds which is 20 times faster than the blink of an eye.</p>

Drive Performance Up and IT Costs Down.

When you're experiencing the power of PROS, you want to focus on the benefits to your revenue, margin, and productivity. Yet traditional, on-premise application hosting and management take time and the resources of an often overworked, understaffed IT department. That's why many companies turn to PROS to deliver and manage their software for them. It's the best of both worlds: a more elastic, flexible cloud computing model that eliminates large capital expenditures and internal IT support, plus, all the privacy and security required by today's most advanced computing environments.

PROS EXPERIENCE WITH CLOUD

We have been investing in cloud for over a decade. Our investments on our application architecture and our growth of the data center has helped us support multiple product customers across all our major product lines. All our applications are available on the cloud.

WHAT DO YOU GET WITH PROS CLOUD?

Faster Innovation

Internal resource bottlenecks won't stall projects, so you'll have faster deployment and upgrades, quicker time-to-value and better ROI. And, standardized configuration and best practices allow for seamless access to all application features and upgrades.

More Agility

Get IT on demand and easily scale as your business needs grow, all while you let your company resources focus on other important projects.

Worry-Free Security & Support

Get full IT service management, including stack monitoring and operations, disaster recovery and capacity management, all with an application-level SLA. Additionally, our SOC-2 certified data centers give you the lowest risk possible for deploying and supporting PROS applications.

More Flexibility

Eliminate large capital expenditures with an elastic cloud-computing model that scales with your business needs.

About PROS

PROS Holdings, Inc. (NYSE: PRO) is a revenue and profit realization company that helps B2B and B2C customers realize their potential through the blend of simplicity and data science. PROS offers cloud solutions to help accelerate sales, formulate winning pricing strategies and align product, demand and availability.
